

## Lost Pilot Logbooks

These logbooks were found at the Wichita Valley (F14) airport during a renovation. They date between 1959 and 1983. We've listed the owner's name below, along with the approximate hours recorded in the logbook. All of the peoples' addresses were in and around Wichita Falls, Texas, except for those with a different state listed behind the name. The hours shown are the last totaled page... if no page was totaled, then *Few* is listed for a page or less of recorded flights, *Some* is a page or more, and *Lots* indicates several pages of recorded flights. If you see yours or someone you know, please send an email inquiry to [stauf90t@aol.com](mailto:stauf90t@aol.com).

Name	Hours	Name	Hours
